Asking for help does not make you weak...it makes you STRONGER!

If you know or think someone is struggling with substance use, ask them if you can **help**. Your concern might be just what they need to start their recovery journey, and **your support** could make all the difference in their **success**.

“THERE ARE EFFECTIVE TREATMENT INTERVENTIONS FOR OPIOID DEPENDENCE THAT CAN DECREASE THE RISK OF OVERDOSE.”

Source: World Health organization

WHAT TO DO IF YOU THINK SOMEONE IS OVERDOSING

- 1 Call 911 Immediately.
- 2 Administer naloxone.
- 3 Try to keep the person awake and breathing.
- 4 Lay the person on their side to prevent choking.
- 5 Stay with the person until emergency assistance arrives.

In nearly **40%** of overdose deaths, someone else was present. Having **naloxone** available allows bystanders to help a fatal overdose and save lives.
