**Session Key:** ■ Introduction to TIC / Implementing TIC Principles   
 ■ Adverse Childhood Experiences   
 ■ Building Community Resilience / Creating a Thriving Community   
 ■ Learning Event   
  Evening Session

### Introduction to Trauma-Informed Care (1 Hour)

In this session, attendees will receive an overview of key elements to help build their foundation of trauma-informed care. This includes an introduction to adverse childhood experiences, the impact of trauma and trauma-informed care. This session will also highlight how the Institute for Trauma-Informed Care can assist organizations on their journey to trauma-informed certification. This presentation is derived from trainings received by international speaker Becky Haas.

### Building Community Resilience (1 Hour)

In this session, attendees will learn about R.O.L.E.S., a five-step process that empowers people to not only identify their personal triggers, but to create a mental paradigm shift that takes a punitive, judgmental view of behavior and transforms it into an approach rooted in positive intent and constructive outcomes. This presentation is derived from training received from Community Resilience Initiative Course 1.

### Implementing Trauma-Informed Care Principles (1 Hour)

In this session, attendees will receive an overview of the impact of trauma and an introduction to the six key principles of a trauma-informed approach. The information in this course will serve as a foundation to help you on your trauma-informed journey. This presentation is derived from Basics of Adverse Childhood Experiences (ACEs), Building Resilience and Using a Trauma-Informed Approach training received by international speaker Becky Haas.

### Creating a Thriving Community (1 Hour)

In this session, attendees will learn about the K.I.S.S. framework for building community capacity through resilience. This model is a public health framework that shows how to build human capital collectively by creating stronger communities that can thrive and better manage the impact of risk. This presentation is derived from training received from Community Resilience Initiative Course 1.

### Adverse Childhood Experiences (1.5 Hours)

In this session, attendees will learn about the ACEs study, why ACEs have an immense effect on people's lives, and what we can all do to dramatically improve health and resilience for future generations. This presentation is derived from training received from ACE Interface and conducted by an approved master ACE trainer.

## Missed a training?

### Visit Our Learning Management System (LMS)

The Institute's LMS offers 80+ on-demand training sessions and learning events, providing 24/7 access. Viewers can see missed sessions, revisit favorite trainings and obtain attendance certificates. Contact the Institute if you wish to receive access.

## ABOUT THE PRESENTER

### Robert Peaden

For over 25 years, Robert Peaden has dedicated himself to advocating for individuals with disabilities. He has supported veterans with PTSD and individuals within the intellectual and developmental disability community. Currently, he serves as the director of autism services at Any Baby Can in San Antonio. As a proud parent of a son on the autism spectrum, his commitment to this cause deepened after his military service. He is passionate about educating others on how to provide the best support for their loved ones with disabilities.
